Title: Ricardo's Research 8

Author: Ricardo.

I, Ricardo, discoverer of  
secrets, finder of lost  
things, master thief  
extraordinaire, have  
discovered a most rare  
and disturbing tale about  
the crystal.

It seems that it won't be  
letting me be in two  
places at once in  
Trammel, which is  
disappointing.

However, it is a bridge  
between any two shards.

Here be where it gets  
interesting... it can  
duplicate anything from  
any shard to another  
shard with the right  
words o'power.

It seems that the great  
Nystul, royal mage to  
Lord British, used it to  
copy the land in the  
shard that we now call  
Felucca onto the shard  
that we now call  
Trammel.

I find meself considerin'  
what might have been in  
that shard before  
Trammel.

I could not discover this  
secret, and it is but  
trivia to one who only  
seeks to steal it, but I  
can't help but wonder if  
Nystul knew what he  
destroyed to build his  
haven.
